

Star Canine Training

Proudly Presents

Lindsey Anne-Marie 3 Days of Agility Workshops

December 12th, 13th, and 14th

Join us for a weekend of focused agility training with Lindsey Anne-Marie!

6 Working Spots (\$120 each) and 5 Auditing Spots (\$25 each) available in each workshop

Handling Essentials - The Meat & Potatoes Workshop

Short sequences and one jump exercises focusing on the 4 main handling techniques (post turn, front cross, blind cross, and rear cross.) This handling workshop will help you understand what the 7 elements of agility handling are and how to use your body language (natural cues) that your dog responds to intuitively in order to navigate them through an agility course. (Jumps and tunnels only, appropriate for all levels.)

2 Sessions Offered: Friday 12/12, 9 am - 12:30 pm or Sunday 12/14, 9 am - 12:30 pm

Beyond Basics Workshop

Put it in flow! Small space coursework focusing on handling strategies and the execution and timing of these techniques. (Jumps, tunnels, weaves, A-frame, and backside jumps. If a team is missing a skill, the challenge can be adapted or the skill can be broken down into training steps.)

Friday 12/12, 1:30 pm - 5:00 pm

Commitment & Distance Workshop

Build the individual skills needed to be able to send your dog to obstacles from varying locations. Learn how to improve their understanding while balancing the training with convergence. (Jumps and tunnels only, appropriate for all levels.)

Saturday 12/13, 1:30 pm - 5:00 pm

Start Lines & Verbal Cues Workshop

Learn how to train a reliable start line stay and basic verbal cues on obstacles. (Jumps and tunnels only, appropriate for all levels.)

Sunday 12/14, 1:30 pm - 5:00 pm

6 Adler Drive
East Syracuse, NY 13057

Lindsey Anne-Marie

Lindsey's love for training animals began in her childhood growing up on a horse farm in Kentucky and competing with her horses both on a local and national level. In 2011 her dog training career sparked when she acquired her first golden retriever (Ava) and later, in 2014, began competing in agility. Her attention to detail, precision and passion for problem solving in dog training stem from her occupation as an electrical engineer. She finds agility courses to be like a maze or

puzzle where you have to strategize handling techniques in order to set the best lines for your dog and run the course challenges as fast and efficiently as possible.

As an instructor, she supports teams at all levels of agility and enjoys helping people achieve their full potential. She finds it very fulfilling when students are having fun and proud of themselves and their dog.

As an instructor, she supports teams at all levels of agility and enjoys helping people achieve their full potential. She finds it very fulfilling when students are having fun and proud of themselves and their dog.

As a competitor, Lindsey has represented her dogs nationally and internationally at events such as AKC Nationals, Westminster, UKI US Open, UKI 1TDC Invitationals, AKC European Open (EO) Agility Team Tryouts, World Team Tryouts, Américas y el Caribe in Chile, and (soon) the World Agility Open (WAO) in the Netherlands.

Her highest level of international accomplishment to date was winning the gold medal with her border collie, Road Runner, at the 2025 FCI Agility Championship of the Américas y el Caribe in Santiago, Chile. This win also earned her an invitation to compete at the WAO in 2026. Together, they also made the 2025 Short List for the AKC Agility World Championship (AWC) Team USA. Another memorable highlight was her 4th place win at 2024 AKC Nationals with her 20" border collie, Maze Runner.

We are SO pleased to host Lindsey Anne-Marie at Star Canine for a workshop where she will be sharing her knowledge and skills with workshop attendees!
